Z-SLM-701	 <p style="text-align: center;">Smoked Lung Model</p>	<p>This realistic, 3-D lung model lets viewers see just what cigarette smoking does to their lungs. When the top is opened, a grayish-white fibrous-feeling cancer is revealed. Made from BIOLIKE 2™ synthetic tissue, this model of a right lung with emphysema and cancer is excellent for individual and group instruction. 5" x 9" x 4".</p>	\$159.87	
Z-WMD-101	 <p style="text-align: center;">What Mommy Does, Baby Does</p>	<p>With cigarette butts, pills, a syringe, and beer bottle caps suspended in plastic, this 3-D model illustrates how alcohol, tobacco, and other substances can cross the placenta and damage a fetus. Excellent for health educators and healthcare professionals to use in education or displays. 6" x 6 ½" x 2 ½"</p>	\$68.78	
Z-TM-202	 <p style="text-align: center;">Tobacco Mouth</p>	<p>This hinged model of the teeth, flexible tongue and oral cavity shows the effects of smokeless tobacco.</p> <p>Mounted on base, supplied with a bottle of simulated tobacco juice.</p>	\$162.00	
Z-MDL-301	 <p style="text-align: center;">Mr. Dip Lip</p>	<p>This hand painted, 3-D model of the mouth opens and closes from the back like a puppet, and flesh-like BIOLIKETM lips retract to show the effects that dipping has on the inner lips, gums, and teeth. Comes with stand. 6" x 5" x 6".</p>	\$172.00	
Z-FAT-5	 <p style="text-align: center;">Five Pound Fat Replica</p>	<p>A grossly dramatic replica of 5 lbs. of fat. Shows the additional blood vessels needed to maintain additional fat. Made of pliable long-lasting vinyl.</p>	\$136.80	

Item #	Image	Description	Price (ea)	Quantity Requested
Z-JOT-876	 <p>A Year's Worth of Tar</p>	This striking, sealed exhibit, containing a cigarette package and cigarette butts submerged in gooey "tar," represents the amount of the carcinogenic liquid that smoking half a pack of cigarettes per day for 1 year would put through a person's lungs. 3½" x 5½" x 3½"	\$83.65	
Z-COPD-101	 <p>COPD Poster</p>	This colorful anatomical chart displays the signs, symptoms and other useful information of COPD or Chronic Obstructive Pulmonary Disease. It comes in a convenient poster size 50 x 67 cm (20x26") and can be written on and wiped off with non permanent markers.	\$27.00	
SAC-125	 <p>Dangers of Smoking Poster</p>	This chart discusses and illustrates the common dangers of smoking: chronic bronchitis, emphysema, lung cancer, bladder cancer, stroke, mouth and throat cancer, heart disease, gastric ulcer, and fetal risk. Illustrations and descriptions compare a healthy lung to a smoker's lung. Size: 20" W x 26" L	\$24.00	
Z-GC-1	  <p>Giant Cigarette</p>	A giant realistic cigarette model with a surprise inside. Flowing like smoke out of the end of the cigarette is a banner that lists dozens of the poisonous chemicals in cigarette smoke and information about why they are so dangerous. Cigarette is 36" x 3 1/4"; banner is 19" x 35".	\$96.11	

Item #	Image	Description	Price (ea)	Quantity Requested
Z-DGB-100	 <p>Smoking: Don't Get Burned Folding Display</p>	<p>Teen-oriented graphics and language help young viewers understand that smoking can have negative-and immediate-effects on their health and appearance. This sturdy folding display identifies the risks of tobacco use and explains that cigarette "alternatives" such as clove cigarettes and smokeless tobacco are not safe choices, either. 58" x 22 1/2" opened.</p>	\$132.00	
Z-CST-303	 <p>The Consequences of Smokeless Tobacco Use</p>	<p>This 3D display graphically shows that using smokeless tobacco is harmful and deadly. Detailed, hand painted models illustrate health conditions caused by smokeless tobacco use, and the informative, easy-to-understand. 28" x 27" opened.</p>	\$442.00	
Z-CAD-102	 <p>Cash Ash Jar</p>	<p>This "urn" is filled with the cremated remains of a smoker's bank account: \$2,000 worth of soggy butts and worthless ashes. A pack-a-day smoker typically spends that much over a year's time in support of this nasty habit. It's the rough equivalent of setting \$40 on fire every week - something most reasonable people would consider an act of sheer lunacy.</p> <p>Includes a reproducible worksheet that helps users calculate how much money is wasted on cigarettes in their area. Size: 4-1/2" x 9"</p>	\$98.97	
Z-TBD-501	 <p>Tainted Blood: Smokers' Blood Revealed™ Display</p>	<p>Designed to look like a cigarette on one side and an artery on the other, this colorful display graphically explains the damage smoking causes in a smoker's bloodstream. The artery in the model shows how smoking causes carbon monoxide to "choke" out oxygen in the bloodstream and contains models reflecting the poisons that flow through the bloodstream of a smoker. Plaque buildup caused by smoking is depicted on the sides of the model. Display includes a tent card that explains each of the aspects of the model and provides further information about the consequences of smoking. Model is 10" x 3" X 2 1/2". Tent card is two-sided and 8 1/2" x 11".</p>	\$132.00

Z-GCAD-1	 <p>Interactive Cigarette</p>	The health benefits of quitting smoking are identified in this interactive display, which details the positive effects of smoking cessation in time spans ranging from a few minutes to several years after a smoker's last cigarette. The user simply turns the outer sleeve, which progressively reveals the stages of improved health that result from quitting smoking. An informative and engaging teaching tool. 3 ¼" x 24".	\$102.65	
Z-CP-J5	 <p>Clem's Phlegm™ Display</p>	Graphically demonstrating one of the nasty consequences of smoking, this attention-getting sealed jar contains about 2 weeks of the phlegm that would be coughed up by a smoker with COPD. Great discussion starter for any anti-smoking lesson or program. 3 ¾" x 6".	\$89.00	
Z-EHS-150	 <p>Effects & Hazards of Smoking</p>	This folding display helps viewers understand the initial and long term effects of nicotine and smoke by products on the human body. 58x22" opened.	\$127.82	
Z-DLE-780	 <p>Death of a Lung Easel Display</p>	When a patient or student views realistic models of lung tissue affected by smoking, the impact is stronger than any words or photographs. Cast from real specimens, these three hand painted models represent a normal lung, a lung with emphysema, and a lung with cancer. This unique, 3-D display illustrates the dangers of smoking in a way viewers will never forget. Comes with protective felt cover. 9" x 12".	\$143.00	
Z-BHED-900	 <p>Benefits Of A Smoke-Free Environment 3D Display</p>	Combining hand painted, 3-D models with informative text, this display graphically demonstrates the serious benefits of not smoking. Each swiveling panel features a normal organ (skin, brain, heart, and lung) on one side, and the flip side features the same organ damaged by smoking. Can be used as a tabletop display or mounted on a wall. 26 ½" x 13" x 5 ¼".	\$387.00
